**ASK US ABOUT OUR 24/7
TECHNICAL SUPPORT!**

Authentium brings you “state-of-the-art” award-winning antivirus protection for your networks.

Fully certified by ICSA & Check-Mark, and a Virus Bulletin award-winner, COMMAND AntiVirus™ is used by Fortune 500 companies, leading educational facilities, and government agencies around the world. And now COMMAND AntiVirus™ is ready to protect your network, and the businesses it supports.

Based on the proven F-Prot engine and developed continuously over a period of more than ten years, COMMAND AntiVirus™ deploys more easily, detects more viruses (and potential viruses), handles more file extensions, and returns fewer false positives than competing antivirus products.

COMMAND AntiVirus™ for Windows (9x, NT, ME, 2000, XP) combines smart heuristics, super-fast virus scanning, and dynamic antivirus protection to keep networks safe from thousands of known viruses and variants—and with Authentium Platinum Support, you can get live technical support when you need

it, 24 hours a day, seven days a week.

Authentium’s technologists have been building secure software for more than 20 years—since 1983. Authentium is a leading developer of comprehensive data security and authentication solutions for network, server, and desktop computing environments.
